

Lunchbox is a fully managed online lunch ordering platform built for SchoolCash Online schools. Parents order and pay online, your staff steps back from spreadsheets, manual tracking, posting items online, and pulling reports — and your school builds in fundraising potential with every order, no extra ask required.

New: automatic setup for SchoolCash Online parents

Parents at SchoolCash Online schools are now automatically set up with Lunchbox ordering accounts — no manual enrollment needed. Your whole school community is reached from day one.

Why schools stick with Lunchbox

Less admin work

Staff step back from spreadsheets, manual tracking, posting items online, and pulling reports.

Nut safe and allergy aware

Built-in tools help schools manage allergies and keep ordering safe for every family.

Vendor coordination handled

We manage vendor relationships so your office doesn't have to.

Built-in fundraising

\$8,000–\$12,000 raised annually on average† — larger schools have raised up to \$40,000.

Fast, guided setup

Our team handles setup end to end — most schools go live in as quick as 1 week, up to 2 depending on vendors chosen*.

Dedicated support

A team on hand for parents, staff, and vendors year-round.

\$8K–\$12K

avg. annual fundraising†

99%+

reduction in admin time

\$0

setup cost

1–2 weeks*

to go live

"I kept telling myself it wasn't that bad. Then I saw what not-that-bad actually looked like."

— Principal

What happens next

- 1 Tell us a bit about your school.
- 2 We handle setup — no cost, no extra work for your staff.
- 3 Parents start ordering, and fundraising builds in automatically.
